

Passport Payments

A Transparent, Full-Service Payment Provider

Managing payments shouldn't be complicated - or unclear. Passport's unified payment solution eliminates the need for third-party gateways and merchant processors, reducing fees and improving cash flow with full visibility into every transaction.

As an expert in small transactions, Passport secures discounted rates across all major credit card networks to help cities and operators maximize revenue. With daily settlement, automated reconciliation, and industry-leading security, Passport ensures a seamless, reliable, and cost-effective payment experience - giving you complete control and transparency over your financial operation.

Core Benefits

Transparent Pricing & Cost Savings

- Reduce processing fees by up to 50% with alternative payment options
- Predictable pricing with no hidden fees for full cost transparency
- Flexible payment structure that aligns with your operational needs

Clear Insights & Simplified Reconciliation

- Fast, efficient reporting provides real-time visibility into every transaction
- Single-platform management allows finance teams to work within one system across all parking products
- Customizable reconciliation tools ensure accuracy and streamline workflows

Secure & Reliable Payment Processing

- Level 1 PCI PA-DSS certification ensures the highest level of security
- Stable, reliable processing environment protects against downtime and fraud
- Apple Pay and Google Pay support offers more secure, contactless payment options
